Preventing Infection | Protecting Patients & Staff

COVID-19 Screening & Testing Site at Puna Community Medical Center

[15-2662 Pahoia Village Road](#) in Pahoia | (808) 930-6001

SCREENING & TESTING PROCESS

- For the protection of our patients and staff, if you have symptoms of COVID-19 (cough, fever, and shortness of breath), PLEASE CALL 930-6001 before entering the clinic.**
- Come to Puna Community Medical Center (PCMC) in the Malama Marketplace at [15-2662 Pahoia Village Road](#) in Pahoia
- COVID-19 testing will run like “typical” office visit
 - Your personal information, ID and insurance card will be collected
 - Your vitals such as temperature, oxygen level, blood pressure will be taken
- Screening with on-site provider for COVID-19 symptoms
- If appropriate, a nasal swab will be collected for the COVID-19 test
- You will be sent home with Home Care and Close Contact information

SIDE NOTES

- Please follow the staff’s directions and instructions
- One patient will be seen at a time at the clinic
- Others patients will be asked to wait outside in their cars
- Test results will take up to a week for processing. PCMC will follow-up with results.
- If you’re uninsured, you will be considered “self-pay” also known as upfront payment via cash or charge card. Ask about payment options for the PCMC office visit charge
- If your provider is not conducting COVID-19, we may provide testing as an urgent care visit.
- Now that all primary care providers perform COVID-19 testing, PCMC will not perform tests ordered by an outside provider. If patients are requesting COVID-19 testing, they will need to be seen at PCMC as an urgent care patient. PCMC’s provider will screen and determine the need for testing and perform the testing when clinically indicated.
