

## Interventional Radiology Procedure Requirements

### Requirements for ALL interventional radiology consults:

- Completed Interventional Radiology East Hawaii Health Referral form for Interventional Radiology Consult
  - Patient's first & last name and DOB
  - Patient's insurance information
  - Diagnosis/ICD-10 code/Reason for consult
  - Direct phone number (office or cell) that the Interventional Radiologist may call to reach the ordering provider (very important to discuss emergent cases provider to provider)
  - Ordering provider's printed name & signature
- Images & reports for any prior imaging related to the reason for consult (Most procedures done in our department require imaging, if in doubt, please call us to clarify-this saves time in getting patient scheduled.)
- Signed Authorization for Release of Images
- Most recent History & Physical (Office note), including current medication list

**Note:** *If your patient has recent lab results (CMP, CBC, Platelets and INR), please provide our office with a copy. This will ensure that our Interventional Radiologists do NOT duplicate lab orders and incur additional costs for your patient.*
